## Greyhounds Make Great Pets

Greyhounds make fantastic pets for families, working people, and the elderly.

Greyhounds are:

- Gentle
- Affectionate
- Clean
- Quiet
- Good with other dogs (some also love cats)
- LOW maintenance
- Long lived

And they aren't:

- Aggressive
- Bouncy or prone to getting under foot

They walk well on a lead and require only 15-20 minutes exercise 1-2 times a day. They don't need a big yard (or a yard at all).

They rarely shed, and have a short coat.

Poncho meets a St Heliers Correctional Centre Clydesdale

**Greyhounds as Pets is a not for profit initiative of Greyhound Racing NSW. Our objective is to improve Greyhound welfare by providing dogs with a 'career change' if they are not suited to or are ready to retire from the racing industry.**
